Dear GeoLOGIC Customer:

Luke Owen trained many of our members so they could earn their Level 1 A (blue cards) and/or the Subcontractor Awareness (white cards) in a timely manner. Furthermore, he spent time educating our contractors on the need to control erosion and sediment on the job site so the class became a learning opportunity instead of just a required certification course.

GeoLOGIC has been a good partner for IEC Atlanta and makes it easy for us to do business together. We will continue to work with them because they are responsive to the requests we have and provide the information our members need to stay compliant with NPDES certification requirements.

Sincerely,

A handwritten signature in blue ink that reads 'Todd Hawkins'. The signature is written in a cursive, flowing style.

Todd Hawkins  
Training Director
