RE: NPDES Stormwater Training Institute  
1000 Peachtree Industrial Blvd. Ste. 6  
Suwanee, GA 30024  
Luke Owen, PG  
President

To Whom It May Concern:

**Wolverton & Associates, Inc. (W&A)** has worked with Luke Owen, PG and the NPDES Stormwater Training Institute for over five years. The quality training that our Professional Engineers and Engineers-in-Training have received has been invaluable, not only to further the education of our staff, but to help provide the best solutions for our clients. Our engineers have found the Institute's instructors very knowledgeable and easy to understand. Specifically, the training has offered practical on-the-job knowledge from liability to environmental protection. I also believe it has been thorough and enhanced the ability of our staff to pass the NPDES certification.

We plan to continue to use the services and training of the Institute and would highly recommend them to others.

Sincerely,

Jerry (Jay) C. Wolverton, Jr., P.E.  
Chief Executive Officer
